

# 24th Thermal & Fluids Analysis Workshop (TFAWS)

Analysis Excellence from the Ground Up – and Beyond!

July 29 – August 2, 2013 (tentative)

Hosted by the John F. Kennedy Space Center

KSC • 2013

## Purpose:

To encourage knowledge sharing, professional development, and networking throughout the thermal and fluids engineering community within NASA and the aerospace industry at large.

## Featuring:

- Paper sessions
- Hands-on software training
- Software demonstrations
- Hardware demonstrations
- Technical short courses
- Guest speakers
- Tours of Kennedy Space Center

## Audience:

- Engineers
- Scientists
- Industry
- Government
- Educators
- Students *All levels of experience are welcome!*

## Free registration!

## Paper Submissions:

Call for Papers is online and abstracts are due by **May 3rd, 2013.**

## Technical areas of focus:

- Passive Thermal Control and Protection
- Active Thermal/Cryogenic Fluids
- Aerothermal
- Interdisciplinary

Sponsored by the NASA Engineering and Safety Center (NESC)
